User

Says
- It will be better if it stores my search history
- Whether it ensure the predicted calorie is good or bad
- Want to track my daily intake of nutritions
- It will be better if it shows the calories immediately

Thinks
- Does the predicted nutritional information is always correct?
- Whether it focuses only the food or any other things?
- whether I will be healthy by attaining all these diet's
- Will this identifies only one or more than one?

Does
- It will provide beneficial information based on food
- Food is scanned and uploaded
- It will study the picture and shows exact calorie
- Once it is detected it stores for the future purpose

Feels
- Excited: To be fit and healthy
- Expectation is fullfilled mostly
- Happy : When the goal is achieved
- Dissapointment happens when things go wrong
- Doubtful: Whether it shows the correct calories or not
